## **The Story of A Tree**

When a leaf falls from the tree, it is the family that suffers. Our family of friends pause in loving memory of our fallen leaves. We are so grateful for each of their lives, their worthy and exemplary traits of character, and for their contributions made to the lives of their families, their local Medical Societies and Auxiliaries, the National Medical Association and the Auxiliary to the National Medical Association. They will be greatly missed by us all, but their spirits will remain.
